**INFORMATION DISCLOSURE STATEMENT
BEFORE MAILING OF A FIRST OFFICE ACTION
ON THE MERITS (37 C.F.R. §1.97(b)(3))**

Sir:

Applicant submits this communication and the attached Form PTO-1449 in compliance
with 37 C.F.R. §§1.56, 1.97 and 1.98. A copy of each of the documents listed on the Form PTO-
1449 is enclosed as part of this communication.

The documents identified on the attached form PTO-1449 include documents which are cited in the specification of the referenced application and/or in the International Search Report (“ISR”) of International Application No. PCT/DE00/02025 of which the referenced application is the U.S. national stage application. A copy of the International Search Report is included with this communication.

As part of this Information Disclosure Statement, Applicant provides an English language Abstract of the Japanese language patent documents Publication Numbers 10161707 and 11024716.

Applicant provides English language Abstracts, as well as the German language references, for the following documents: EP 0 727 723; DE 296 00 609; and DE 298 23 119. Applicant provides an English language Abstract for the DE 196 15 190 reference.

Applicant provides herewith copies of German language EP 0 9176 466 and EP 0 917 034 and English language U.S. Patent No. 6,311,101 which are members of the same patent family.

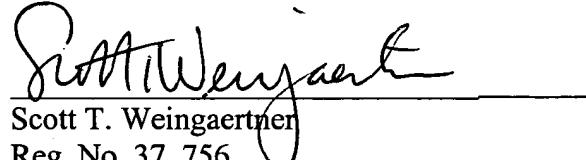

As for the articles by B. Schranze, et al. and T. Klesper, et al., these documents were cited in an examination report of the German Patent Office in connection with the now granted, first-filed counterpart of the above-referenced application. A copy of the granted German application (DE 199 29 933 C2) is enclosed. The Schranze and Klesper articles provide background relating to remote data access to field devices such as sensors and actuators via the Internet and also to remote diagnosis via the internet. The references do not, however, relate to service and support over a network, which subject matter is recited in all of the pending claims.
